

s, To the Oceans, White with Foam

With Sandy
TUESDAY, JULY 4, 2006

The Utah Puppet Theater's production of *The Princess & The Pea* will be performed on our Community Stage at 5:00 p.m. just before the Parade. Bring the entire family to enjoy this magical presentation featuring life-size puppets! Sponsored by the Sandy Arts Guild.

The 10K Sandy Classic. Not only will we have the 5K Fun Run, but this year will also feature a sanctioned 10K race. Register early and save money. Call 568-2900 to secure your spot in either race or register at www.sandy.utah.gov. Don't forget to take advantage of the screenings available at the Healthy Sandy "Health Fair". Available all day long.

SUPPORTED IN PART BY:

Chick-Fil-A * Costco * REI
Wasatch Running * Einstein Bagels

...re to make plans now to be a part of Sandy's celebration. Fun, Games, Music, Activities and the popular Custom Inflatables. From the morning races, through our parade and right up to the best community fireworks in the valley, there is something everyone can enjoy! See you on the 4th!

Sandy City Students
at the Hogle Zoo
by Kim Pickett, Public
Utilities Department

Sandy City played an integral part in the Salt Lake County Water Quality Fair that took place May 10th at Hogle Zoo. The fair concept was created to work with 4th grade students and their teachers to educate children about all aspects of water quality. Sandy City participated by providing three booths which included materials educating students on backflow prevention, water conservation, water cycles and storm water pollution prevention. Other educational opportunities focused on protecting local watershed areas and the importance of keeping our drinking water clean. Each student who participated received an activity book with 4-5 facts and questions on each of these subjects.

The event was considered such a success due to the large number of students being educated during a one day event, that the Water Fair Committee has reserved dates for next year. Sandy City was proud to meet our Federal requirements on educating the public on these water quality issues as well as being a part of such an important event which educates our youth.

For more information or to receive materials to use with your children please contact Kim Pickett at 568-6087.

Bless America, My Home Sweet Home!
